### **Task**

Zero Waste Initiative: Institutional Category  
Develop Model Language and Rate Structure for Future Solid Waste Contracts  
Contracts include Collections, Facilities & Landfills

### **Goal**

Prevent litter from entering waterways from solid waste operations (collections, facilities, landfills).

### **Objectives**

1. Develop model contract language for collections, facilities and landfills.
2. Address what is reasonable for a driver, actions of container users, property managers, etc.
3. Include rate structure as part of the process and develop model financial contract language.

### **Agenda**

1. List Best Management Practices for Collections
2. Address what is reasonable for a driver, users, and property managers
3. Find model contract language in existing newer contracts
4. Consider rate structure to address ZLI for collection-related activities

### **Future Agenda Items**

Repeat above agenda items for Facilities and Landfills

**TAC Minutes – See attached excerpt from TAC Minutes of February 13, 2014 regarding Task.**
